Redefining Technology...

**VG RL-42 RF Remote Switch
for 4 Lights and 2 Fans/Dimmer**

**India's 1st Company to make RF based Remote Switch
Make In India**

Key Features:

- **INDIA'S FIRST RF BASED REMOTE CONTROL SWITCH.**
- **FIRST TIME IN INDIA :** Turn your Lights / Fans / Dimmers ON/OFF or turn your Fans/Dimmers SLOW / FAST with help of remote.
- **USEFUL FOR :** 4 Lights and 2 Fans or 2 Dimmer (use only fan or only dimmer or in combination).
- **LATEST RF TECHNOLOGY :** Comes with New RF Technology.
- **OBSTACLE FREE USE :** Unlike traditional IR Remote method to operate TV/AC to point to the wall unit, one can use our RF remote even through obstacles like walls / furniture, it can be operated even through different rooms.
- **PAIRED UNITS :** One remote will not affect other units in same room or other rooms, even if 2 units are placed next to each other.
- **COMPACT UNIT:** Fits in standard 2 module GI conceal box.

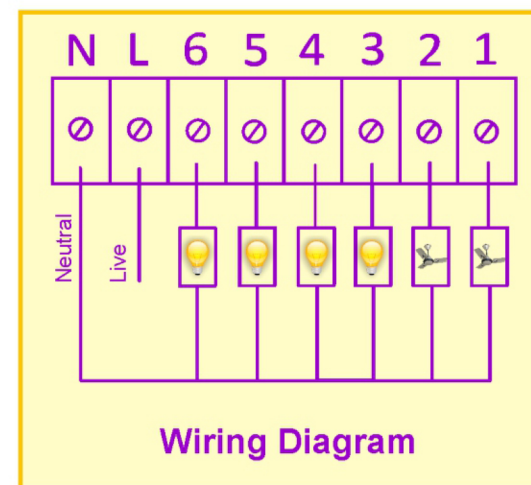

Salient Features:

- **VISIBLE IN DARK :** Wall unit and Remote both have rubber mat with phosphorus paint material commonly known as RADIUM which will GLOW IN DARK.
- **VERY SIMPLE WIRING :** It has only 8 wires out of which 2 are Supply wires i.e. Live (phase)-Neutral and rest six are load connections.
- **EASY CONNECTION :** You can replace to existing switch board or connect even parallel to switch board.
- **COST SAVING :** Bedrooms are normally provided with double switch-boards, one at the entrance and other near Bed, cost of 2 way Wiring and double switchboard connections can be saved by connecting our product's wall unit at the entrance and placing remote next to bed.
- **POWER SAVER :** It help you power save on FAN / Dimmer lower the speed more the power save due to micro controller driven technology.

**India's 1st Company to make RF based Remote Switch
Make In India**
